

Please note that K-LOVE is an important part of not just my daily life, but also my family's and our community. There are so many things on the radio that I don't want my child listening to. However, K-LOVE is a very positive alternative and has programming that is very child safe that instills family values. By giving LPFM priority over the FM translators, we would possibly lose a tremendous asset to our community. Please do not give LPFM any priority over the FM translators used by K-LOVE. Thank you.
